InstaCode 2005

- #Code-05 — \$695.00 (Base program)
- #Code-CO — \$200.00 (Add-on Car Opening Module)
- #Code-MK — \$200.00 (Add-on Masterkeying Module)
- #Code-CM — \$300.00 (Add-on both Car Opening and Masterkeying Modules)
- #Code-AU — \$185.00 (Additional User for all versions of InstaCode)
- #ICDemo — \$10.00 (Demo Disk)

InstaCode Software has changed to fit new market demands. The software is now offered as a base package, with available add-ons. The base package contains over 1.5 billion codes, card printing, electronic key machines, find partial bittings, cutting trees, graphical layouts, etc. Includes three user licenses.

Add-Ons Include...

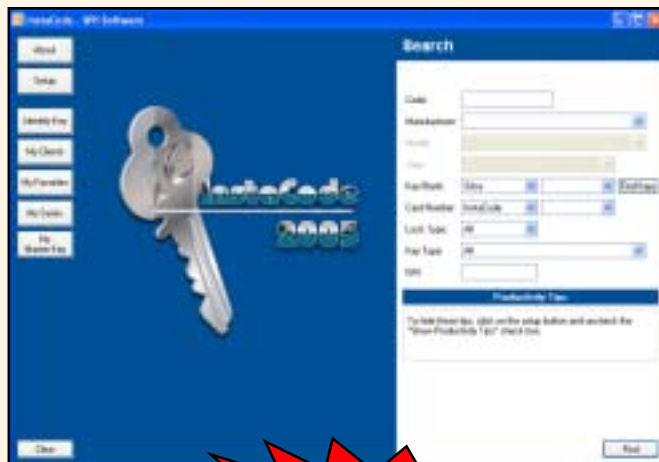

- Car Opening & Transponder Information/Programming*
 - MasterKeying*
 - Triax Communication Module - \$395
 - Additional users above three - \$185 each
- * \$200 for 1 module or \$300 for both

System Requirements:

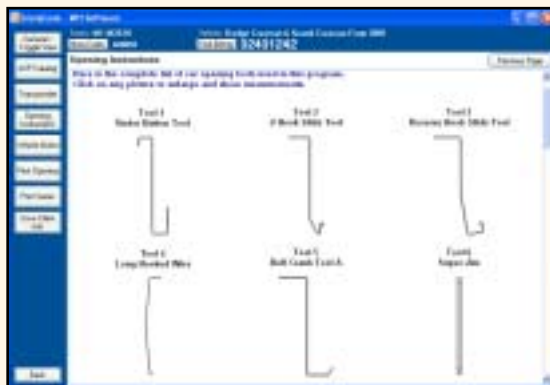

InstaCode is supplied on CD ROM and comes complete with an easy to follow step-by-step instruction manual. InstaCode requires 64MB of free RAM and 100MB of available Hard Disk Drive space, mouse or other pointing device and runs on either Windows NT, 2000, XP or 2003. Floppy disk images are included on the CD ROM so you may make your own set of floppy disks if required.

Pocket InstaCode requires a Pocket PC (not included) with 64mb RAM running Microsoft Pocket PC2000 or later. Contains all the codes but not all the features of InstaCode. Call for details.

Subscribe to InstaCode, as low as \$25.00 a month!

DEMO DISC!
Run InstaCode for 10 days.
Only 10 bucks!
#ICDemo - \$10

Pocket InstaCode

#PCODE-05 — \$495.00 (Non-InstaCode Owners) Single User
\$349.00 (InstaCode Owners) Single User
Call for Multi-User Pricing

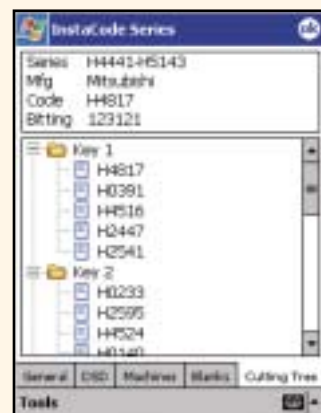

Slip InstaCode in your pocket!

Sick and tired of carrying a laptop around with you? Or tired of calling the shop to retrieve a code? Pocket InstaCode has all the important features of the InstaCode program, packed into a program small enough to run on a Pocket PC. Pocket PC's are the size of a "Palm Pilot" style device (slightly larger than a mobile phone), yet advances in technology allow them to be almost as powerful as a laptop PC. Pocket InstaCode takes advantage of these new technologies by providing the locksmith with a powerful, feature packed and extremely compact solution for code and information retrieval.

1. Open Pocket InstaCode and the **"Search"** Window is ready for you to find your code. Simply enter the known information, click FIND and your code appears on the screen.
2. **All Space and Depth Information** is displayed in your choice of inches or millimeters.
3. Choose **"Machines"** and get the card number, cutter information, jaw side, and alignment for your key cutting machine.
4. Select **"Blanks"** and get a comparative cross reference. This gives you the matching blank for your preferred key numbering system.
5. Only got a part of the bitting? **Enter the known information in "Find Bitting."** The program finds the missing information.
6. An on screen **Cutting Tree** helps eliminate key blank waste.

Pocket InstaCode requires a Pocket PC with 64mb RAM running Microsoft Pocket PC2000 or later.

ProMaster 5

#PM-5 — \$1895.00

So much more than a Number Cruncher.

ProMaster 5 is a total master-key system management tool. You and your clients deserve the best.  All 5 Volumes #MOT-CD12345 — \$299.00

For years locksmiths have begged for comprehensive service manuals on motorcycles and they are finally here!

Covering a wide range of service procedures, you'll know everything a locksmith needs to know about each cycle. Plus, you'll get step by step photographs and instructions. If you have ever been frustrated by cycles made by the following manufacturers, you'll need these comprehensive books...

• Aprilia • BMW • Buell • Cagiva • Ducati • Givi • Harley-Davidson • Honda
 • Indian • Kawasaki • KTM • Malaguti • Moto Guzzi • MZ • Neiman • Suzuki
 • Sym • Triumph • Vespa • Yamaha • Zadi.

All five volumes also available in print format. See Automotive Service section.

AutoEdge on CD

#AE-CD — \$125.00

This CD contains over 1,400 pages of automotive locksmith service.

A multitude of articles give you complete service procedures for a wide variety of cars. Techniques covered include code locations, lock and column disassembly, lockouts, and much more. Hundreds of huge photos show you how to service domestic, foreign, and even high security vehicles with ease. All known key blanks are given, as are all details you would need to work on the vehicle.

An easy index allows you to instantly locate the car you need, and one click transports you to the correct page. Read the data onscreen, or even print it out if you choose. **As a special bonus, when you purchase the AutoEdge on CD-ROM, you'll also be enrolled FREE in the National Locksmith Automobile Association (NLAA). You will receive 12 monthly newsletters over the course of the next year.** Each one covers an important vehicle from top to bottom with tons of step by step photos.

NLAA Guide To Domestic Auto Service Vol.1 on CD

Note that NLAA members will already have received these materials. Also available in print format. See the Automotive Service Section

How To Pick Locks on CD

#HT-PLX1 — \$69.95

How To Pick Locks Deluxe on CD

#HT-PLX1-NDPK — \$109.95

Includes both software and pick set. Software available on CD only.

Lock picking tools and how to use them can be mysterious to locksmith students, and newer locksmith employees. How To Pick Locks solves that problem by teaching authorized personnel the quickest and easiest way to pick locks, and how to use various kinds of picks. Thus, you'll be better able to serve your customers during lockout situations by opening:

- House locks • Store locks • Some auto locks
- Filing cabinet locks • Tool chest locks and more.

This software shows you every step of lock picking in clear and simple detail. Live Action Learning Software is an interactive guide on CD-ROM for your PC or Macintosh computers. This guide is loaded with informative audio, video, animation, photography and illustrations.

Move at your own pace through screens that come alive with sound and video. Don't just READ about how to do the skill. Actually SEE it done and demonstrated for you! Each of these elements teach you in a clean and concise way how to learn a particular skill. Using Live Action Learning Software, you move at your own pace through the material which makes it perfect to help locksmith students and employees to upgrade their skills. You can even print out a written copy of the text from this CD to use as a handy practice guide.

How To Pick Locks: Pick set not included. Software available on CD only.

How To Pick Locks Deluxe: Included with the software is the Deluxe Pick Set. It comes complete with every tool you need to pick most normal cylinders. Included are ten different kinds of picks, four tension tools, and two broken key extractors. The lock picks are made of hardened spring steel components. The case is genuine leather with full zipper. With both learning software and tool set, you'll have everything you need to learn and perform the art of skilled lock picking.

Windows® System Requirements: 486 or Pentium® processor-based computer (Intel Pentium or compatible processor recommended), Windows® 95, 98, or Windows® NT 4.0 with Service Pack 3 or later, CD ROM drive, 16 MB of RAM, 12 MB of available hard-disk space for Acrobat® Reader, Sound Blaster or compatible sound card and speakers recommended.

Mac OS Requirements: Power Macintosh computer, Apple System Software version 7.6.1 or later with open transport, CD ROM drive, 16 MB of available RAM, 8 MB of available hard-disk space for Acrobat® Reader.

The Live Action Learning Series can be viewed from your hard disk or from the CD. If you load it on your hard disk you will need 100 MB of available hard disk space.

How To Pick Tubular Locks on CD

#HT-PTL1 — \$69.95

How To Pick Tubular Locks Deluxe on CD

#HT-PPTL-TLPC — \$149.95

Includes both software and tubular lock pick. Software available on CD only.

Lock picking tools and how to use them can be mysterious to locksmith students, and newer locksmith employees.

Lock picking tools and how to use them can be mysterious to locksmith students, and newer locksmith employees. How To Pick Tubular Locks solves that problem by teaching authorized personnel the quickest and easiest way to pick tubular locks, most commonly found on vending machines and on other items requiring security. This software shows how to use the most common kind of tubular lock pick. Thus, you'll be better able to serve your customers during lockout situations by opening:

- Vending machines • Coin operated washers • Coin operated driers • Coin operated video games and more.

This software shows you every step of tubular lock picking in clear and simple detail. Live Action Learning Software is an interactive guide on CD-ROM for your PC or Macintosh computers. This guide is loaded with informative audio, video, animation, photography and illustrations.

Move at your own pace through screens that come alive with sound and video. Don't just READ about how to do the skill. Actually SEE it done and demonstrated for you! Each of these elements teach you in a clean and concise way how to learn a particular skill. Using Live Action Learning Software, you move at your own pace through the material which makes it perfect to help locksmith students and employees to upgrade their skills. You can even print out a written copy of the text from this CD to use as a handy practice guide.

How To Pick Tubular Locks: Tubular lock pick not included. Software available on CD only.

How To Pick Tubular Locks Deluxe: This software shows you every step of standard 7-pin tubular lock picking in clear and simple detail. Included with the software is the Standard 7-Pin Tubular Lock Pick. By practicing the skills taught by the software, you'll be opening tubular locks in seconds using this pick. It has been the standard of the industry for thirty years.

Windows® System Requirements: 486 or Pentium® processor-based computer (Intel Pentium or compatible processor recommended), Windows® 95, 98, or Windows® NT 4.0 with Service Pack 3 or later, CD ROM drive, 16 MB of RAM, 12 MB of available hard-disk space for Acrobat® Reader, Sound Blaster or compatible sound card and speakers recommended.

Mac OS Requirements: Power Macintosh computer, Apple System Software version 7.6.1 or later with open transport, CD ROM drive, 16 MB of available RAM, 8 MB of available hard-disk space for Acrobat® Reader.

The Live Action Learning Series can be viewed from your hard disk or from the CD. If you load it on your hard disk you will need 100 MB of available hard disk space.

Cards & Keys on CD

#CK-1 — \$149.00

Cards & Keys performs two functions:

- Key Blank number cross referencing
- Code card production

The first section of the program features a highly comprehensive database of key-blank reference numbers from 34 different manufacturers, 70,000 keys all cross indexed. This section of the program allows you to enter a key-blank reference number from a particular manufacturer and have this instantly converted to be the reference number of the brand of key-blank you use.

This information includes:

- Card number o Space and Depth measurements in Metric or Imperial
- Code series information (where applicable)
- Cutter number
- Key blank number
- Graphical representation of the key position in the jaw (allows easy positioning, and prevents mistakes)
- Space and depth reference marks for needles.

The program comes pre-loaded with well over 700 cards, and also includes the ability to make your own cards should you require.

System Requirements: The minimum computer hardware requirements are a Pentium CPU, 32MB of RAM and 50MB of available hard drive space, mouse or other pointing device and Windows 95, 98, ME, NT, XP or 2000. A Windows supported printer is optional.

Key Companion on CD

#KC-1 — \$99.00

"What is that key-blank?"

How often have you wasted time trying to work out a comparison from an old or obsolete key-blank? With Key Companion, you can chase up key comparisons in a snap! And also you can just identify a key if you are not sure, as a visual, then Key Companion will make the comparison for you against that selection.

This easy to use program has been designed for any key cutting operation, and allows you to compare key-blank reference numbers from 34 manufacturers in a matter of seconds.

It's ideal for locksmiths, key cutters, hardware stores and shoe repairers. It's economical, easy to install and works with all versions of Microsoft Windows.

Best of all, the program includes not only 70,000 key-blank cross references, but a picture of the blank and profiles as well so you can make sure your search has produced the correct result!

System Requirements: The minimum computer hardware requirements are a Pentium CPU, 32MB of RAM and 50MB of available hard drive space, mouse or other pointing device and Windows 95, 98, ME, NT, XP or 2000. A Windows supported printer is optional.

Key Manager on CD

#KM-SU — \$200.00 (Single User License)

#KM-MU — \$700.00 (Multi User/Networkable)

#KM-AU — \$55.00 (Additional Users for Multi User Version)

Key Manager is a stand alone or locksmith supported software package for the end user with a three user license. Profit minded locksmiths will re-sell this package to institutions and end users who can benefit from Key Management.

The program is ideal for use by: Schools • Manufacturing Companies • Real Estate Agents • Local Councils • Corporations • Hospitals • Sports Clubs • Utility Companies (such as power, water, gas, phone companies etc.).

Features: Easily manage key issues and returns • Control overdue keys • Print detailed reports of the who, what, where and when of keys, doors and key-holders • Easy to install, configure and use • Multi-user • Full history reporting • Comprehensive step-by-step instructions • Unlimited master-key system size • Locksmith supported systems • Stand alone systems.

Designed both as a complimentary product for ProMaster and also as a stand alone product, this is a premium quality program, developed in accordance with industry standards and requirements for this type of software. It features the latest in programming and development technology which provides ease of use and program reliability and stability. ProMaster Key Manager solves this problem by providing a comprehensive key management mechanism for all keys within the organization – both those that belong to a master key system and those that are separate such as vehicle keys.

The other unique feature with the ProMaster Key Manager is that it allows for management of multiple systems, and even multiple sites from the one location. Better still, it allows the locksmith to 'export' all relevant system details from ProMaster into the ProMaster Key Manager, thereby providing a highly professional service which is extremely convenient for the client.

The program is supplied on CD, and includes highly comprehensive instructions, which will allow almost anyone to become totally familiar with the program in only a few hours.

How To Jumpstart Your Locksmith Business or

Ten Ways To Increase Your Shekel Intake

#JUMPSTART — \$19.95

Anyone who's ever read anything that Jake Jakubowski has written is familiar with his style...

A little bit of humor, a little bit of "down home" wisdom and a whole lot of chutzpah. This book is just as witty, wry and pointed as everything else he had written. There's something on this CD for the newbie, the seasoned 'smith and the person that's dreaming of the day when they can go out on their own. Jake's advice on money making, building your business and customer relations is timeless.

Available on CD only.

The 15 Minute Safe Opening Technique on CD

#JJ-CD1 — \$99.00

This book deals exclusively with round head lift out doors. Shows five ways to open a Major; three ways to find the Dog Pin on a Major; four ways to open a Star; four ways to open a LaGard style round head.

Also covered are: Bolt shear, side punching, drilling false gates, finding Dog Pins, 'blowing bolts' and drilling perfect scope holes; How to make emergency dials; How to open most round heads in fifteen minutes or less; Open the most severely vandalized heads in a matter of minutes; How to bypass hardplate and relockers on lift-out doors; How to spindle drill older Majors; How to 'Blow the bolts' on a LaGard and many LaGard style round heads.

Over 100 specific photographs. Fifty clear illustrations. Dozens of specific drill points and a specific drill point locator, over 140 pages. Included are drill points for Diebold, Migh-T-Safe, Kingdom, Sentry, In-A-Floor and other round heads. Page after page, picture after picture, illustration after illustration—all designed to help you make money.

Also available in print format. See the Safe Opening Section.

Penetration Party on CD by Dave McOmie

#PP-CD — \$110.00

Here it is...the complete Penetration Party book on an interactive CD!

This CD will work on both PCs and Macs. The entire book has been loaded onto this CD and the beautiful part is that now you can instantly access any of the information you need with the push of a button.

You can easily find every reference to any word or word combination you want with the Find button. Want to take a closer look at any photo? Simply enlarge it as big as you want using the Zoom button! Navigating through the book is simple, and you can print out any page or pages you want with the Print button.

Slap the Penetration Party CD into your drive and blast through safe photos, opening instructions and drill points at warp speed!

Also available in print format. See the Safe Opening Section.

The National Locksmith® Guide To Electronic Locksmithing

#EL-1 — \$39.95

Everyone knows there's big money in selling, installing and servicing electronic security such as mag locks, electronic strikes, and simple access control.

But how can you learn all the skills needed to make the profits?

This book starts with the all the basics that every locksmith needs to know about electricity, and teaches you every step of the way. You'll learn everything from closed circuit TV, simple access control, wireless security, and electronic locks.

The Ultimate Technitips Collection

#TIPS-2 — \$39.95

Here's one of the most useful books ever available to the locksmith!

Three hundred pages filled with tips and tricks from veteran locksmiths. You'll learn all the secrets other locksmiths use to save time and make extra money on the job. You're GUARANTEED to make back the cost of this book in no time flat.

Categories of tips include: Car Opening, Domestic and Foreign Auto Service, General Automotive, Making & Modifying Locksmith Tools, Padlock Tips, Mortise Lock Tips, Lockout Tips, Door Control, Safe Procedures, Picking & Impressioning, Modifying Key Machines and much, much more.

The Ultimate Technitips Collection is worth its weight in gold! In this one volume, you'll have the tricks and secret methods developed over many years by HUNDREDS of locksmiths. Order your copy today.

Service With A Smile by Sara Probasco

#SWS — \$14.95

To tickle the funnybone of anyone in a service oriented business.

Service With A Smile accounts the humorous escapades of Don and Sara Probasco. You've been entertained by Sara's monthly column, now you can have an entire collection of her finest tales.

Antique Padlocks by Jack Roberts

#PAD-1 — \$29.95

Finally there is a book to give you all the information you need about old interesting locks.

Our manual shows you a photo of the lock and gives you data on the manufacturer, age, construction materials, and even the value of the padlock! Plus, we tell you how to make an operating key, as well as information on which blanks to use, etc. A "Notes" section gives a history of the lock as well as any technical information needed to help you make a working key. Hundreds of types of locks are covered including iron, steel and brass padlocks.

Flat Rate Manual by Janice Pate

#FRM-1 — \$34.95

Now you can easily "Price for Profit!"

Chapters allow you to price jobs in all these categories: Domestic and foreign autos, code keys, conversions, duplicate keys, first key or rekey, installations, key-in-knob locksets, lockouts, masterkey systems, miscellaneous, safe and vault work and trip charges.

Aluminum Stile Door Service and Repair by Jake Jakubowski

#JJ-ASB-1 — \$199.00

• In Aluminum Stile Door Service and Repair I endeavored to take the mystery out of aluminum stile door service, repair, replacement and refurbishment.

• I outlined easy ways to replace a pivot, a lock or a concealed vertical rod. I show how to diagnose, repair, adjust or replace an overhead concealed closer or Rixson floor check.

• In this book, you can: Learn the difference between a "stile" and a "style". Replace a surface mounted closer or deactivate a pivot with equal ease. Adjust a malfunctioning Jackson CVR or electrify a lock. Learn how to "take down a door" or replace a frame or add a mullion, or install a magnetic lock.

• In 423 pages, with 758 photographs and illustrations, I show you how to make some really swinging profits by installing hinges, butts, closers, floor checks, over head concealed closers, panic hardware, locks, latches, dust-proof strikes, new doors, frames and electronic access control.

• Photograph-after-photograph, illustration-after-illustration and chapter-after-chapter makes, I believe, Aluminum Stile Door Service and Repair the book to have.

NLAA Guide To Domestic Auto Service Vol. 1

#NLAA-D1 — \$45.00

Ford 8 Cut Decoding Key Set

#FD-8 — \$595.00

Complete with 143 specially cut keys and simple directions you get door and ignition keys within just a couple of minutes. There is virtually no learning curve. It's that simple. While this set is not inexpensive, it is the fastest way to make door and/or ignition keys for this lock.

Wafer Lock Reading by Robert Sieveking

#WLR-1 — \$19.95

• **Easy to learn.** • **No Codes needed.**

• Faster and safer than impressioning. • Easy to learn principles will have you reading locks fast. • Make keys for foreign auto without codes, disassembly or impression. • Reading wafer locks is one of the special skills every locksmith should master.

Revised GM Steering Column Course

by Thomas A. Mazzone & Tom Seroogy

#GM-2 — \$115.00

Here's what the course contains... • Comes complete with take-home test so you can become certified on GM steering column service! • Authoritative training on every domestic GM column from 1967 to 1995. • Includes the collapsing GM steering shaft, avoid the \$165 GM 10-cut mistake, A to Z airbags, square columns made easy, Alpha Tech Service without fear, the truth about VATS variable timing and more. • Written and photographed by 24 year GM Master Technician, Tom Mazzone, and 10 year Auto Locksmith Expert, Tom Seroogy. • In-depth information drawn from actual field experience. • Large clear photos highlight commonly found problem areas and take you step by step for clear, easy and concise service procedures. • Dangers & Warning section alerts you to costly and time consuming problems before you start. • A tool guide shows exactly what tools are necessary for servicing each column. • Written using the same strict GM service guidelines used for training GM technicians.

Includes the update free!

GM Sidebar Lock Decoder System by Tom Thill

#TT-1 — \$99.95

Tom Thill, the author of a new book, has invented an amazing new way to make keys for six cut GM Sidebar Locks.

The book describes a method which allows you to use a set of specially cut keys in the ignition. By turning the keys in the lock, one will become trapped. The key will only be removed when you release the turning pressure. Then you use a second set of keys until the second key traps.

Each key is specially coded. In just a few minutes you will have identified the two keys which trapped in the lock. Simply look on the provided chart until you find the section that lists the two specific keys which trapped for you. Right there on the chart, you will be given several codes. One of those codes is the correct one for the key. In many instances you will be given only one code, which will be the exact one for the lock. His new system will save a great deal of time and trouble in those instances. The average time it takes to decode the lock with his new system is about 10 minutes, and sometimes faster.

The book includes full details of all the methods, and all the charts needed to insure that you may never have to tear down a GM column again and complete instructions and specifications which enable you to cut 130 of your own keyblanks using the precise specifications needed.

Do not confuse this decoder method with tryout keys. You are not creating tryout keys. You are creating carefully specified keys which exploit the sidebar lock to decode it by trapping a wafer. Then, knowing which two keys become trapped using the system, we give you the correct code for the lock.

Foreign & Domestic Auto Service by Michael Hyde

#FDAS-1 — \$69.95

This book represents the best work of Automotive Locksmithing guru Michael Hyde, author of the famous AutoSmart.

In this 300+ page collection, you get assembled in one place, the best articles and automotive procedures ever produced. Hundreds of photos lead you through step-by-step locksmith service on the most challenging cars on the road. All the cars covered are recent models. In this one book, you have every detail you need to know, including excellent photos, about common and difficult to service cars. This book will save you hours of time, and help you make big profits.

The Sieveking Auto Key Guide & Illustrated Cross Reference by Robert Sieveking

#AK-1 — \$27.00

The Sieveking Auto Key Guide lists over 2,600 automotive and motorcycle keyways, covering makes from Acura to Zundapp, and listing fourteen popular key manufacturer numbers.

Every listing has clear illustration of the keyway. This allows the locksmith to compare the "key-in-hand" to the listed number. If the key blank number is not known, the "Maker" section of The Sieveking Auto Key Guide will allow the locksmith to search through all the listed keyways for a particular auto maker "by the illustration of the keyway". When the correct keyway is found, you will also find all the manufacturers numbers for that keyway. The keyways are also identified as pin or wafer, and the number of pins or wafers given. Whether the illustrated key is 6 wafer or 8 wafer, 5 pin or 10 wafer, you'll know at a glance.

AutoSmart 2004

#AS-04Set — \$85.00

The world famous AutoSmart™ is the only set of books you need to service virtually every car on the road. New Ultra-Durable Binding has been added to create books that last. Need a drill point or relocker drill point on a gun safe?

Then this is *THE* book for you, with superb photos and precise information on gun safes made by Amsec, Blue Star, Browning, Cannon, Centurion, Cobalt, Fort Knox, Frontier, Gardall, Gold Coast, Goldfield, Granite, Hall's, Kodiak, Liberty, Treadlok, ValueLok, Winchester and Zanotti. PLUS, Dave has included an invaluable section on how to defeat the most popular locks currently on the market, both mechanical and electronic. Mechanical locks include: Ilco P67; LaGard 3330; S&G 6730. Electronic locks include: Amsec KPL-100, KPL-2000, ESL-10; LaGard Swingbolt, Old-Style 33E, New-Style 33E, S&G 6120. This is the first book in a brand new series, in which each volume will be dedicated to a particular type of safe. This book is on gun safes. The next one will be on vault doors. The one after that will be on GSA containers. And so on. That way, when you have a particular type of container to open, you can pull down one book...instead of searching page by page through a dozen.

Modern Safe Opening by Robert G. Sieveking

#MSO-1 — \$59.95

This book is a step-by-step How-To course in safe penetration. Opening safes is one of the most profitable aspects of the locksmithing business.

Now, with Modern Safe Opening you'll learn: the theory of operation through troubleshooting and combination changing to logical penetration site selection and methods. Nearly all possible drill points are defined and illustrated by original photos and accurate drawings. Drill and transfer, drill for the drop, drill for the fence, drill for a relock trigger, or drill to solve a specific lock malfunction. Each method is defined, and you get step-by-step procedures. Back, side, top or face drill, under the dial or outside the dial. You'll learn it all!

The Best of Dale Libby

#DALE — \$25.00

This book includes the best articles written by Dale Libby over the course of many years, going back well over ten years! Now you can have this terrific collection of safe opening articles, automotive articles, and more.

These are the articles that started the safe opening revolution. Now you can have them all complete, under one cover! Order your copy today! • Sentry Hardplate Info! • 135 pages, tons of photos! • Contains over 50 chapters! • Learn from the master! • Covers safe troubleshooting.

Penetration Party by Dave McOmie

#PP-1 — \$110.00

Uncensored! • The Safes! • The Tools! • The Action! • The Perfect Openings! • The Bloopers and Blunders! • The Slick Tricks!

No one knows safes and safecracking like Dave McOmie. When it comes to drill points, he is the master of all masters. This book takes you inside Dave's mind, and allows you to follow his thought process as he analyzes each opening. Dave gives you his thoughts on the best opening method, then the opening is performed. And then Dave honestly appraises each method and offers improvements where he feels his original methods were less than perfect. **Also available on CD format. See the Software Section.**

#PP-1CD — \$159.95!

10 Years of Dave McOmie

#DM-10 — \$199.95

Every single National Locksmith article by Dave McOmie from August 1986 through August 1996 under one cover!

• This book has a magnificent and durable casebound hard cover! • Over 500 high-gloss pages—our biggest safe book ever! • Each page is numbered and labeled by month and year for easy reference. • Dave has written an extensive Index, which categorizes each safe by manufacturer and type, and lists the corresponding page numbers and month/year. This is an indispensable aid to the technician who needs to locate information NOW! • Dave has re-read each article and groaned a few times due to inaccurate or incomplete information. Where appropriate he has written Retrospective Comments at the end of the articles. These are sometimes information-loaded, sometimes humorous, but always worthwhile.

Safe Deposit Box Service

by Robert G. Sieveking

#SDBS-1 — \$39.95

There is gold in safe deposit boxes!

Not just money stored inside them, but gold to be earned by opening and servicing these containers. But what should I look for? Where do I drill for the fence or gates? Can I refinish this door easily? Can I open this door without damaging the lock? Where can I find space and depth dimensions? I have a key, but why can't I retract the bolt? How do you make a drill pattern for these locks? I pulled the nose, now what do I do?

There are a lot of questions, and Safe Deposit Box Service gives you all the answers! You'll learn the complete theory of the principles and operation of the lever lock, as well as the tools necessary to defeat them. You'll be able to open these locks with minimum damage to the lock and container. Original photos and accurate drawings on nearly every page lead you to quick and easy success when faced with lock boxes, safe deposit boxes and inner safe doors.

Dave McOmie on Vault Doors Vol. 1 — Bank Vaults

#BV-1 — \$110.00

Dave McOmie has done it again! Here is the definitive new book on Bank Vault opening made easy!

These openings can be a nightmare, but not when you bring Dave McOmie along with you on the job. You get amazing photos and opening details as usual.

Dave McOmie on Vault Doors Vol. 2 — Fire & Plate Vaults

#FPV-1 — \$110.00

Featuring Dave McOmie's extraordinary level of detail, opening techniques, and clear photographs, this new volume makes Fire & Plate Vaults easy to open.

Your investment in this book will pay for itself many times over in saved headaches and time.

Dave McOmie on Lift-Out Round Doors

#LRD-1 — \$125.00

At long last, we are pleased to announce Dave McOmie on Lift-Out Round Doors!

This newly published book contains 317 pages (not counting the lengthy introduction), 664 photographs, and more than 40,000 words of text. It covers just about every lift-out round door you will ever see, and a whole lot more (54 different manufacturers, to be precise). Included in the text are drill points, relocker drill points, depth to door bolts, door thickness, door diameter, and many, many tips and tricks.

Drilling Safes

by Carl Cloud

#DS-1 — \$95.00

One of the most expert safemen in the country, Carl Cloud has written a very important book on safe opening.

One of the most critical parts of opening a safe is knowing where to drill the holes. But what's the best way to drill a safe? How do you drill hardplate? What am I looking at through the hole? What tools do I need? What do all these safe terms really mean? Exactly how do I defeat a relocker? This book answers all those questions and many more!

Modern Safe Locks

by Mark Bates

#MSL-1 — \$95.00

You always wanted to make money servicing safes?

You need this book! Even if you never touched a safe before, you'll be able to earn immediate profits with this easy-to-use book! The book details: • Original factory combinations • Dialing instructions • UL and VdS ratings • Changing instructions • Guide to change keys • Safe lock glossary • Safe lock compromises • Forbidden zones

Learn how to service, troubleshoot and change combinations on over 100 modern key, combination and electronic safe locks. The procedures and photos are very detailed. Even a beginner can now make big profits in safe service!

Manipulation Home Study Course

by Robert Sieveking

#MAN-1 — \$49.95

Our home study course guides you on a step-by-step process, teaching you everything there is to know about manipulation.

When you have learned this skill, you will be able to open locked safes by feel and touch alone! Manipulation allows you to open the combination lock without drilling, and without doing any damage at all to the safe.

With our Manipulation Home Study Course you learn at your own pace, in complete privacy. After each step, you take a test to measure your understanding!

Diary of a Safeman by C. L. Corey

#DIARY — \$25.00

This book is a real gem... the private safe diary of old time safecracker C.L. Corey.

Back in the days of Al Capone the crooks were blowing safes with nitroglycerin and C.L. Corey was out servicing and repairing those old safes. The book features an introduction by Dave McOmie.

Mr. Corey not only kept notes on all of his jobs, he also carefully photographed every safe he worked on. Here in striking detail, we have reproduced this diary from the most exciting era in safe work, the early 1930's. You'll see all the great old safes from the past and you'll learn how to open and repair them. Many of these beauties are still in use today!

Safe Opening Articles 1987 by Dave McOmie

#SA-1 — \$19.95

Now under one cover—all the informative safe opening articles by expert safeman, Dave McOmie.

This book contains articles reprinted from The National Locksmith issues, August 1986 through 1987. Plus an all new introduction and new chapter on six-sided safes—not available anywhere else! Also features many enlarged photos for easy identification. This book is a must for all serious safemen!

Safe Opening Articles by Dave McOmie

#SA-2 — \$23.95

Dave McOmie's original articles from when he first started writing for The National Locksmith are reprinted in this book.

The first five years or so of Dave's work is presented here so if you don't have issues from the early 80's you will not want to miss a single drill point. Each article contains very valuable information to anyone who ever works on safes.

National Locksmith Automobile Association (NLAA) One Year Membership

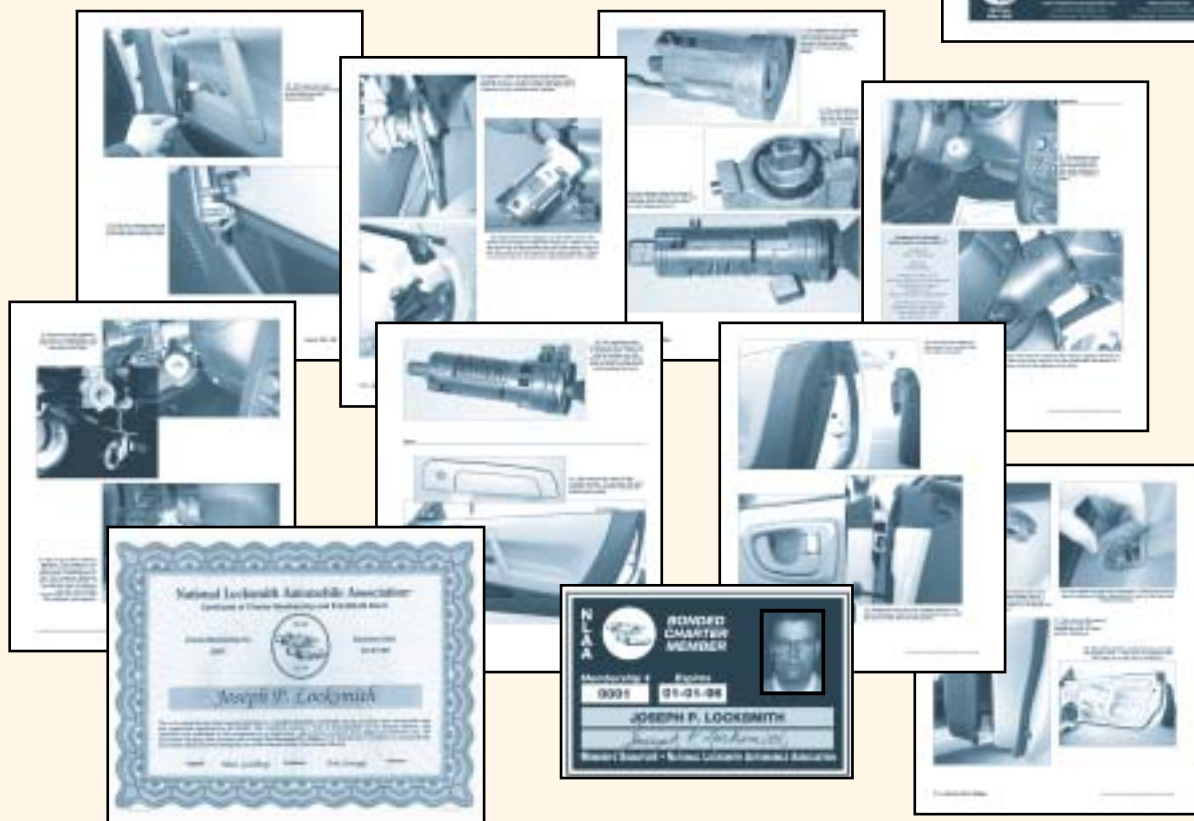

\$125.00 in the U.S. or \$150.00 outside continental U.S.A.

The big problem in automotive locksmithing is the tremendous amount of information you need to have at you fingertips.

Code locations, service procedures, key blank numbers, lock parts, linkage types, opening methods...the list is virtually endless. To make matters even worse, this information is constantly changing. That's why you need to join the National Locksmith Automobile Association (NLAA).
